## SHARJAH YOUTH GUIDE

## About the Center

Wasit Youth Center opened its doors in 2008, and it offers several activities within five main tracks: Literature and Languages, Science and Technology, Entrepreneurship, Arts, and Sports.

The center offers a number of activities in the area of Literature and Languages including reading, appreciation for literature, and other cultural activities such as writing short stories and poetry, debates, and a variety of literary elements. Youth can improve their reading habits and develop literary and critical skills.

As for the Science and Technology track, it offers activities related to robotics, programming, scientific inventions, and innovation.

In the field of Entrepreneurship, the center offers many activities related to leadership and personal development, in addition to human capital investment, financial investment, volunteerism, and developing initiatives. Youth entrepreneurs will have the opportunity to acquire the skills needed to solve problems, communicate effectively and initiate initiatives.

In the field of Arts, youth can benefit from a variety of activities such as music, visual and plastic arts, theater, and cinema.

In the field of Sports, the center's facilities are an integral part of its offerings, with many activities available. These include indoor football, swimming, water polo, table tennis, martial arts, and archery. Youth will have the opportunity to acquire the skills they need in a variety of sports.

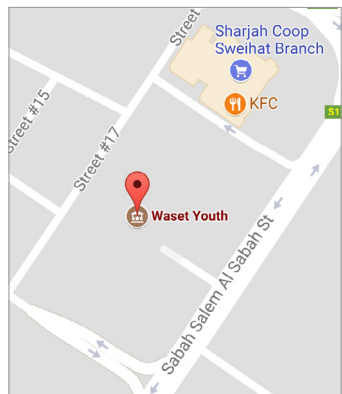

### Center Hours:

- Year-round hours of operation: 5:00 pm to 8:00 pm
- Holy Month of Ramadan: 9:30 pm to 11:30 pm

## WHO ARE WE?

Sharjah Youth is a youth-facing organization focusing on creativity, innovation and seeking to identify talents from an early age and help youth further develop these talents.

The organization guides youth toward purposeful investment of their energy, by providing the support they need within an attractive environment where they can practice their hobbies and learn new skills. The long-term objective is to enable and empower youth and to qualify them to meet the challenges of the future and take on leadership roles.

Sharjah Youth is part of Rubu' Qarn Foundation for Creating Leaders and Innovators, which established in line with the UAE's vision aimed at building knowledgeable and creative generations for the future.

## Our vision

A community partner in building conscientious and influential generations.

## Our Message

To achieve seamless integration between all institutions affiliated to the Rubu' Qarn Foundation, by designing and implementing programs, activities and events in collaboration with local and international partners. Our focus is to discover, develop and invest the energies of youth within an Emirati environment that stimulates creativity and innovation and builds conscientious and influential generations for the future.

## Our Values

Citizenship  
Creativity  
Innovation  
involvement  
Impact  
Care  
Sustainability

# Sports

Sports track offers youth a variety of activities with an emphasis on physical and health education. It provides them with the skills they need in various sports to qualify them for participation in local and international competitions and tournaments.

Science and Technology track focuses on programming, robotics, the application of STEAM and creates an environment aimed at stimulating creativity and innovation amongst youth.

# Entrepreneurship

The Entrepreneurship track supports youth in gaining necessary skills such as problem solving, effective communication, knowledge sharing and embeds lifelong concepts of continuous learning and self-development.

Literature and Languages track focuses on developing literary taste amongst youth and encourage a love for reading and knowledge.

# Arts

The Arts track focuses on a variety of art activities, including visual arts, applied arts, plastic arts, performing arts, theater, and other fine arts.

## Life Skills

Selected programs that aim at developing life skills such as:

- Critical Thinking
- Effective Communication
  - Negotiation
- Time Management
- Emotional Intelligence

## General Activities

- Contests
- Local & International Events (Participations)
  - Internships
- Mentoring & Coaching

## Specialized Tracks

- Literature & Languages
  - Sports
- Science & Technology
  - Arts
- Entrepreneurship
